Camper's Advance

Assignment Changes and Sleeping Groups

Assignment change for **Camper's Advance**

The campsite has barely any light poles, it will be very dark at night. Think of an idea to light up the campsite. **DO NOT BUY ANYTHING.**

1. Plan what you need for your solution (be detailed).
2. How much it will cost.
3. Present your solution to the officers.

Draw / Sketch your solution if it helps you to explain.

The time to present your assignment is on 14th September 2024 during camp setup.

Form a team by yourselves of minimum 4 and maximum 5 people (including guides) by 31 Aug, this will also be your sleeping group. Once done, assign a team leader and send a list of your group members to LCpl Lemuel Loh (010-397 0592). If any difficulties, approach LCpl Lemuel Loh.

Male

These people will be there to **guide** you. You must include one of them in your group.

- Cpl Hang Le
- LCpl Jonathan Loo
- LCpl Lemuel Loh
- Helper Bob Anson Ong

Camper's Advance

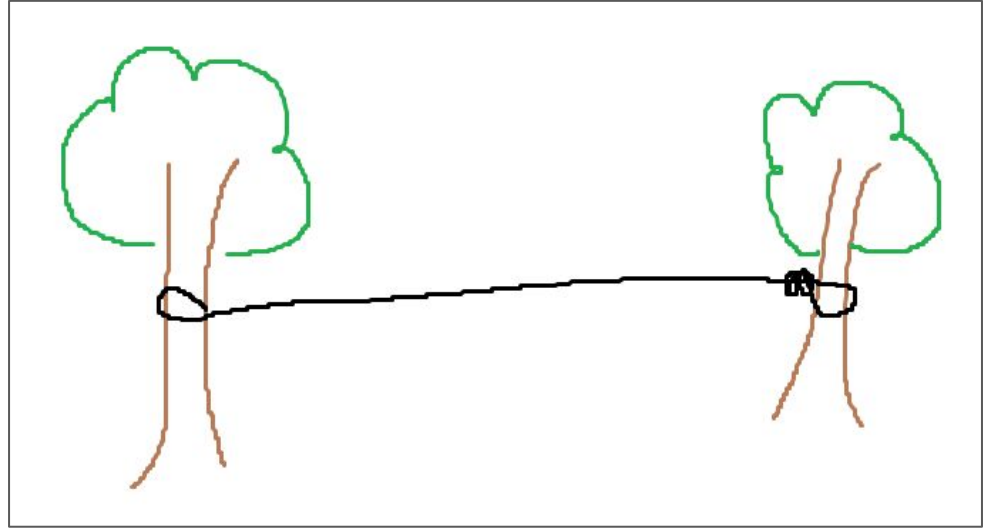

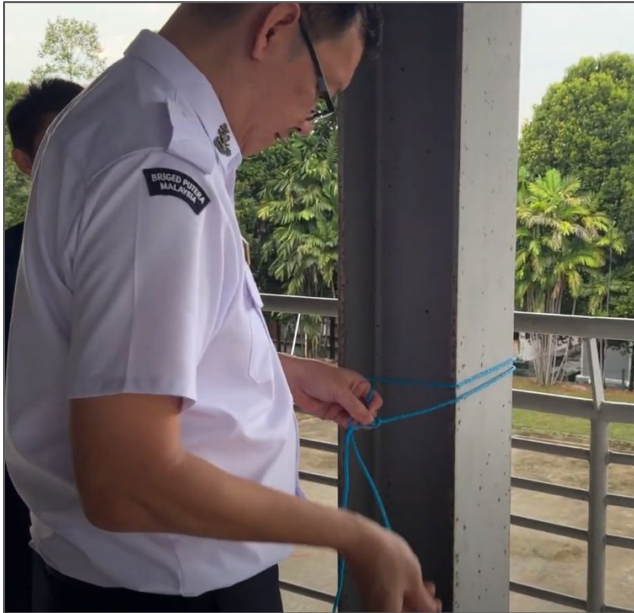

How to pitch an A-Tent

- ❖ You will be given one golden coloured flysheet, one groundsheet, rope and one set of poles & pins.
- ❖ You are expected to know how to tie knots properly, especially **ROUND TURN AND TWO HALF HITCHES**.
- ❖ There will be no instructions on how to pitch the tent given during camp.

Step #1

Find a suitable place to tie your rope between 2 poles/trees. At a suitable height.

Step #2

Place the groundsheet on the floor with the **orange side up**.

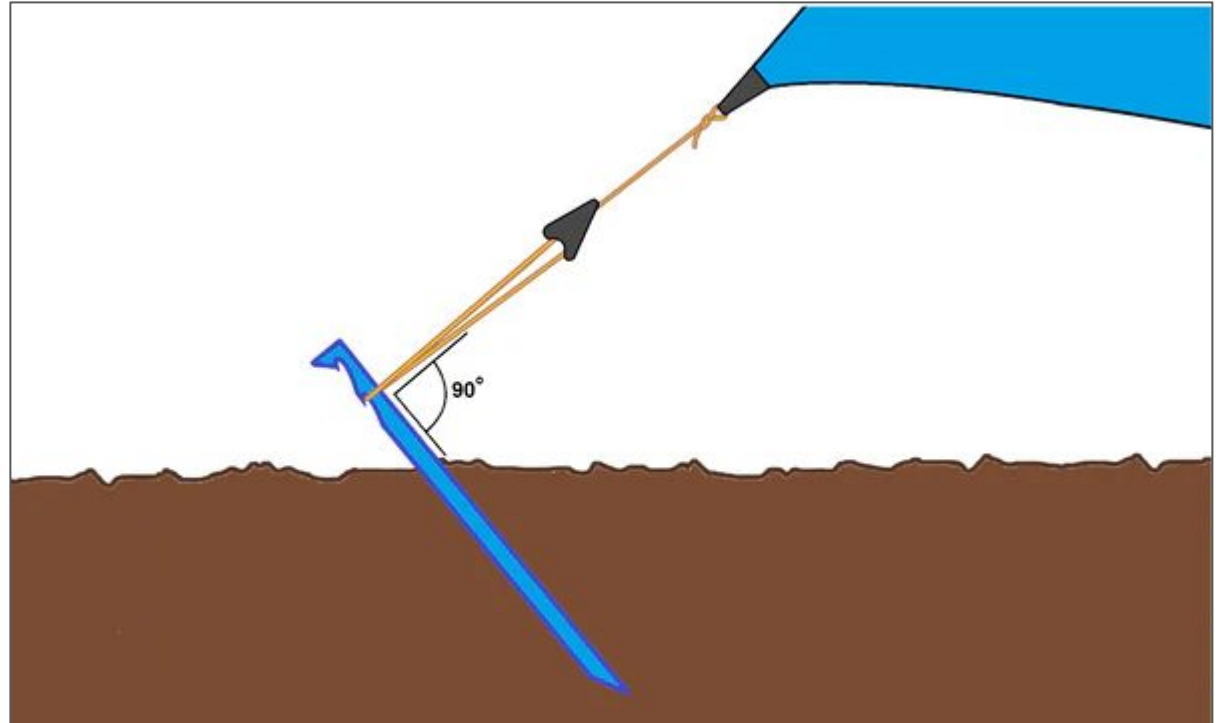

Step #3

Put the golden flysheet over the rope.

Step #4

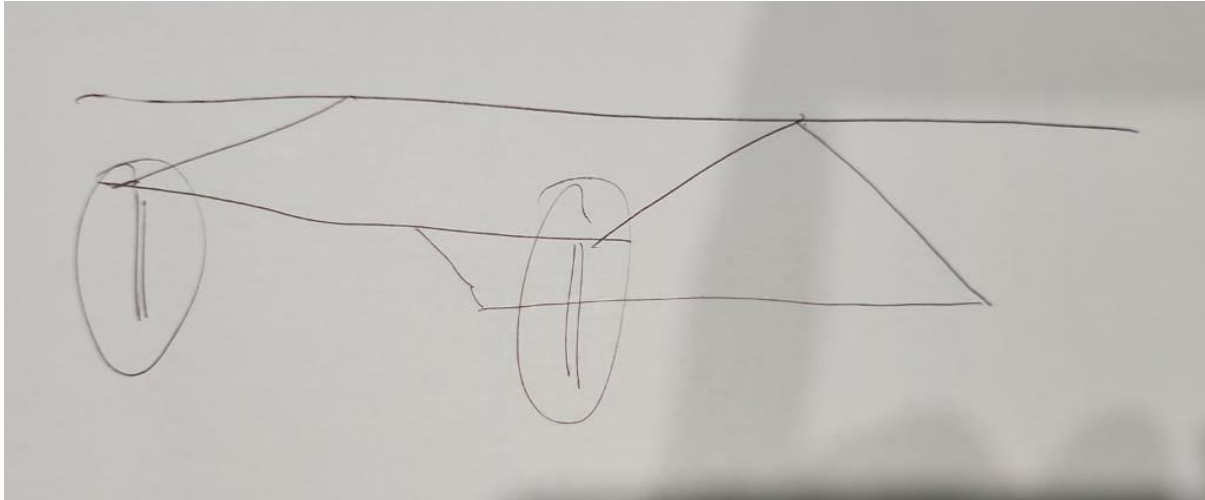

Pin down your flysheet. The Y-shaped peg for the tent is to be pinned **towards the tent** with **two fins facing towards the sky**.

Extra: The pole is to keep one side of the tent of the flysheet up, **in good weather**. (It is not a must to use it)

This is one way of using the pole. You can be creative with it.

This is the unedited video of the demonstration
on 17 Aug. [**Click Here**](#).
